2013: The Internet is broken (#YBTI)

After the news of 2013, it should be obvious that:

- ▶ The Internet does not serve civil liberal society
- ▶ Instead, the contemporary Internet is used for:
 - ▶ Mass-surveillance
 - ▶ War
- ▶ Internet architecture decisions are enablers

2014: We Fix The Net!

Architect a network for civil society

To be used for:

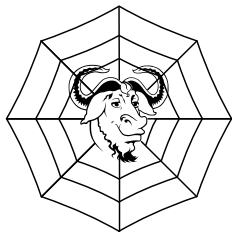

- ▶ Private communication
- ▶ Education
- ▶ Responsible commerce

December 28th, Hall B, all day!

Meet hackers from cjdns, GNUnet, #YBTI, Tor, net2o, I2P, Ethereum, LEAP, Tails, Fenrir & more!

2015: ÉQUIPE DÉCENTRALISÉ

- ▶ Research team at Inria founded in late 2014
- ▶ Part of the new “High-Security Lab” in Rennes
